STATINTL

MEMORANDUM OF RECORD

SUBJECT: Telephone Call from [REDACTED]
STATINTL [REDACTED]
to Dr. Wheelon

Dr. Wheelon

I'm sorry that I didn't get back before you left.

[REDACTED] STATINTL

I'm sorry too, but we had to get to New York.

Dr. Wheelon

How did you folks soak on it?

STATINTL

[REDACTED] STATINTL

We thought we could contribute. This subject would be under one of the top department heads, [REDACTED] Perhaps a group of three would come back and talk to Duckett and others and come to grips with it.

Dr. Wheelon

Who would be the contact?

[REDACTED] STATINTL

STATINTL [REDACTED]

Dr. Wheelon

I will have Duckett get in touch with you. Do you want to execute a contract for professional services?

Subject: [REDACTED] Telephone Call 2

STATINTL

STATINTL

[REDACTED]
We would prefer that. It won't be necessary for initial discussions. We will leave it in Stan's hands completely. He will have authority to proceed.

Dr. Wheelon

This makes pretty good sense. I was not so sure your people could really make a contribution - I think you can.

[REDACTED] STATINTL

cimainly methodology. I think it would make a good disciplinary team.

Dr. Wheelon

We should do something about clearing these guys.

[REDACTED] STATINTL

Stan will give you a call on names and birth dates. Not being familiar with intelligence business - we have a couple of fellows here who are about to be debriefed who may be put on project - is there any possibility of deferring it for a couple of weeks?

Dr. Wheelon

Yes - have Stan give us a ring. Have him give Duckett a ring.
